

Charge4Bike

Product Sheet

- Charging and parking space for 4 e-bikes
- Double-sided advertising facility
- Particularly cost-efficient

Charge4Bike
Item no. 261901-001
(Exemplary embodiment)

Charge4Bike Plus
Item no. 261901-003
(Exemplary embodiment)

Dismount and charge your e-bike

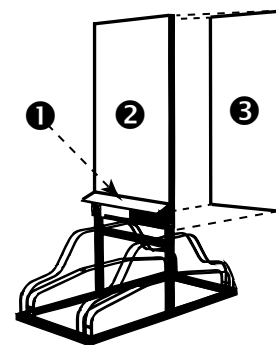

With our **Charge4Bike** we have designed a very inexpensive system specifically for e-bikes. A weather-resistant multiple socket outlet with appropriate security monitoring enables the charging of up to 4 e-bikes. **Charge4Bike** is therefore the perfect addition to bicycle paths, guest houses, communities or simply a great attribute to innovative customer service - the main attraction of the "shop around the corner". Please note that, in each case, approval for the socket outlets for this system must be granted from the provider.

Assembly and promotion

The two-sided advertising space offers adequate space for your message. We recommend to laminate the surface (bright aluminium) with weather-proof foil.

The following advertising spaces are available:

- ❶ 108 x 703 mm
- ❷ 1100 x 703 mm
- ❸ 1252 x 703 mm

We accept no liability for damage of any kind not covered by the General Terms and Conditions; particularly for damage caused by vandalism, lightning/overvoltage, nor for consequential costs for automobiles / vehicles nor according to technical connection regulations. In the event of a warranty claim, the company SSL Energie GmbH shall bear the costs required for transport, travel, labour and materials only; excluded are the additional and potentially substantial costs incurred for transfer of the object to a location other than the target site. In the event of a warranty claim, the product must be returned to the company SSL Energie GmbH for fault diagnosis and supplementary performance if required. The General Terms and Conditions of Sale and Supply of SSL Energie GmbH (GTC) shall apply here. These can be referenced on the internet under <http://www.SSL-Energie.de>. Article 10 of the GTC is not applicable in this case.

Technical data

Product properties	Material	Hot-dip galvanized steel, advertising space and covering of the socket outlet made of aluminium
	Colour / Surface	RAL6028 powder-coated, other colours on request and with surcharge Advertising space and covering of the socket outlet made of bright aluminium
	Floor space required:	1362 x 703 mm
	Total height	1802 mm
	Weight	approx. 44 kg
Electrical Data	Connection cable	Feed cable length 10 m, H07RN-F 3x2,5 mm ² with Schuko plug
	Rated voltage	230 V AC
	Rated current	max. 16 A
	Connection power	max. 3.6 kVA
	Electrical equipment	4 Schuko sockets with socket protectors
	Protection class of the electrical equipment	IP44 according to DIN EN 60529 (spray-water protected)
	Fault current protection	Ground fault circuit interrupter A 2 / 25 / 0,03 A
	Activation	No activation needed, every user has free access to the socket outlet
Advertising space (see page 1)	Front side (outlet side):	1100 x 703 mm and 108 x 703 mm
	Rear side	1252 x 703 mm
Item number	261901-000	Free choice of RAL colours, possible for orders starting from 20 pieces
	261901-001	Standard RAL colour 6028
	261901-003	Standard RAL colour 6028, according to the certification requirements of the ADFS (German Cyclist's Association) with a convenient extra bar/stand to conveniently lean on bicycles
List price*	261901-000	€ 958.00.--
	261901-001	€ 920.00.--
	261901-003	€ 1125.00.--
Delivery time	about 3 weeks after receipt of order	

*All prices are net prices..
